Usui Reiki Classes with *Ken Gray and Dana Glore-Gray*

Ken Gray & Dana Glore-Gray are certified Usui Reiki and Karuna® Reiki Masters with the International Association of Reiki Professionals. Ken has been involved With Reiki for over fifteen years. He and Dana are certified Reiki Master/Teachers who own and operate “Subtle Energies Healing Center”, an organization which is dedicated to the healing and empowerment of its students and customers. Dana is also the originator the Urevia® healing system and she has authored the book “Urevia’ Crown of Divinity. Ken and Dana teach classes together at “Subtle Energies”, and provide a wealth of healing experiences that are shared with their students in a safe, loving atmosphere. They believe that the best way to provide training for their students is to conduct themselves with the highest degree of integrity possible. Together they create a unique blend of energy, which is both enlightening and spiritually rewarding for their students.

What can Reiki do for me? You ask?

This question is raised to me all the time. Reiki has a consciousness all it’s own, it works with the individual in a very unique way. I have seen students literally heal themselves. I have watched students become more aware of their own spirituality. I have noticed that Reiki will open and increase psychic intuition. I have witnessed Reiki work with the student’s creative talents & abilities to help them manifest their gifts on the planet. It has been said that Reiki is “Love”. I agree with that statement and feel that it is a very peaceful and tranquil energy. It’s power to increase one’s ability to love yourself and other’s in a healthy way is unsurpassed. Years ago an astrological consultant friend of mine suggested that I take a Reiki class, she said that I would be good at it. At the time I was what I considered to be just a regular guy. I was mostly concerned with myself, just another guy trying to get ahead in the world. On a lark I did a beginning Reiki class, as soon as I had the attunement process that engages the Reiki energy, I noticed that the energy was coming through me very strongly. I didn’t think too much about it at the time. When we practiced the hand positions a fellow student remarked that the energy was very strong with me and that I had a great talent. I thought he was exaggerating, but little did I know that Reiki would change my life forever. I became more nurturing and caring with regard to my family and friends. In fact I became that way with just about everybody. That still holds true for me today. It is said that when you become a Reiki Master, one is mastered by Reiki. It’s true; it will take you on a journey that will last a lifetime. It will guide you to the best qualities of yourself. I invite you to try a class and experience what Reiki has to offer. For most of our students it has become a path of healing, peace, and spiritual awareness.

What is Astrology?

Astrology is like a fascinating foreign country, with a language all its own, territory that's easy to get lost in and natives with unique personalities. For hundreds of years, astrology was secret and even dangerous territory. From the beginning, astrology was studied for its relationship to our daily life, as summed up by the ancient maxims "as above so below." Later the study of the stars was undertaken for its own sake, and astrology became what we now know as astronomy. Throughout history, it has cycled between periods of favor and disfavor, banned by churches and dismissed by scientists, yet astrology has survived the ages, continuing to confound its critics and fascinate everyone. By using the ancient art of Astrology we can gain a great deal of information that we can use to help us make more informed decisions about how to live our lives.
